Assignment: *The Last Wave*

Please review your notes or the film itself (one copy in the library, I have one) and try to describe how it highlights the two most important phenomena in the mind of the Australian tribal aborigine:

1. the tribal lore

2. the Dreamtime

In your paper, try to incorporate answers to the following questions: what are these phenomena? what sort of effect do they have on the life/mind of the aborigine? how is this shown in the film (use concrete examples of characters from the film)?
